Robe of the empowered conjurer

The wearer ignores the first spell casting fail each day and doesn't lose a slot.

ENEMIES

Koopas, turtle soldiers

Koopa skin is highly toxic except for the shell. Hitting them causes poisonous particles to spread out which damage anyone nearby for half the damage inflicted on the Koopa. Hitting them on the shell avoids this but requires attacking with disadvantage in order to hit safely. A character that misses because of disadvantage but hits on the other die can choose to inflict a normal hit. Koopas represent a consistent group of turtle-like creatures. There are many different types of Koopas, the best-known of which are the Koopa Troopas which are yellow with green shells.
